Appendix G – Criteria applicable to Policy MN 7B

Policy MN 7B

Methods 1, 2, 3 and 11

1. Character and degree of modification, damage, loss or destruction;
2. Duration and frequency of effect (for example long-term or recurring effects);
3. Magnitude or scale of effect (for example number of sites affected, spatial distribution, landscape context);
4. Irreversibility of effect (for example loss of unique or rare features, limited opportunity for remediation, the costs and technical feasibility of remediation or mitigation);
5. Resilience of heritage value or place to change (for example ability of feature to assimilate change, vulnerability of feature to external effects);
6. Opportunities to remedy or mitigate pre-existing or potential adverse effects (for example restoration, enhancement), where avoidance is not practicable;
7. Probability of effect (for example likelihood of unforeseen effects, ability to take precautionary approach);
8. Cumulative effects (for example loss of multiple locally significant features).
